

Right at Home Lite

A stepping stone for those considering homecare

Using our Right at Home Lite service, we provide concerned relatives with peace of mind that loved ones are safe at home.

Clients are sent an easy to use and simple plug-in device, either a telephone or a touchscreen, with an OKEachDay button on it. Clients press the OKEachDay button anytime before a time of their choice or are called by a highly trained and friendly member of the OKEachDay team. If we are unable to make contact, we will let nominated contacts know.

Benefits of using Right at Home Lite:

- Low cost service - confirms wellbeing and safety, one or more times a day
- Protects your loved one at home
- There's no need for a device to be worn
- Reassurance for family members
- Simple to use device
